

QUALITY, FOOD SAFETY, AND SUSTAINABILITY POLICY

Sacchetto s.r.l. produces, packages, and markets wines that are part of the tradition of Venetian products. Sacchetto s.r.l. pursues customer satisfaction through the care and quality of its products and the attention to the services that enable the presentation, delivery, and marketing of these wines. It is therefore constantly committed to maintaining and improving, where natural limits allow, the quality and safety of its products. Therefore, in carrying out its activities, the company aims to:

- Operate in compliance with the regulations in force in the European Community, in Italy, and in the countries to which the wines are exported, as well as the reference specifications for PDO and PGI products.
- Operate in compliance with the requirements expressly requested and agreed upon with customers, as well as those set forth in the standards to which it has chosen to adhere, including the Customs Trade Partnership Against Terrorism (CTPAT) program.
- Maintain and improve the food quality and safety management system, along with the health and hygiene self-monitoring system.
- Improve and disseminate a culture of food safety and quality.
- Maintain, improve, and replace equipment and infrastructure.
- Develop a relationship of trust with suppliers, enabling increased product safety and quality, in a mutually satisfying relationship.
- Maintain and improve the efficiency of the production process, implementing operations and controls that ensure product safety and quality.
- Provide staff with the necessary clothing and protective equipment, training, and the most suitable work environment, to pursue not only safety and quality objectives but also a high level of internal satisfaction.
- Operate staff in compliance with safety regulations and ethical standards, adhering to the provisions of employment contracts and paying attention to their needs and requests.
- Implement all necessary procedures to ensure product safety and protection from deliberate contamination.
- Comply with environmental legislation and operate with a focus on sustainability, including through employee involvement and training.

The Top Management of **Sacchetto s.r.l.** considers it essential to implement and demonstrate its commitment to sustainability by ensuring continuous improvement of its standards to all stakeholders.

In light of the quality policy guidelines outlined above, the organization prioritizes the following specific objectives:

- Conduct its activities in compliance with ethical and legal standards, integrating economic, social, and environmental aspects into its decision-making and control processes.

- Involve the company's key functions (human resources) in sustainability management through refresher courses and training.
- Ensure the well-being of its employees by creating dynamic work environments where health and safety, respect for diversity, human rights, and professional development are priorities, thus ensuring the achievement of the company's current and future objectives.
- Promote the adoption of sustainability practices among its suppliers, in order to continuously improve the overall performance of its operations and contribute to the dissemination of the principles of sustainable development.
- Spread the culture of sustainability within its group through targeted meetings and outreach activities.
- Identify best practices and technologies available to increase the environmental performance of its production process.
- Commit to developing and maintaining relationships of trust with its stakeholders.

Sacchetto s.r.l. intends to pursue the objectives and is committed to promoting and managing all activities that influence the above-mentioned insights through the organization of company resources, dialogue, sharing, and ongoing monitoring of the results achieved.

Regarding best communication practices, the company intends to ensure demonstrable, truthful, and transparent communication on sustainability issues and the characteristics of the products it markets. This is also achieved through the Sustainability Report and a Communication Plan aimed at conveying the company's sustainability-related values and objectives to stakeholders.

Based on this policy and taking into account the resources to be made available, Sacchetto s.r.l. sets itself annually congruent objectives
